Assure that there is no general increase in taxes to the residential sector or to the small business sector. 2. Adjust the excessively inflated residential values in the larger cities so that homeowners do not pay a disproportionate share of taxes and so that municipalities receive a more equitable share of provincial grants. 3. Further, the program must provide that the following measures form part of, and be implemented with, the reassessment program: (a) Legislate the revenue-sharing program between the Province and local governments. (b) Apply the Property Tax Credit directly to the payment of property tax bills, at the time of payment. - Ballot Items 31 and 32—*Debated October 26th, 1978.*
- Ballot Item No. 33

Mr. Deans—Resolution—That in the opinion of this House, the Government should proceed with assessment reform to achieve property tax equity through the following modifications of the Reassessment Program: 1. Assure that there is no general increase in taxes to the residential sector or to the small business sector. 2. Adjust the excessively inflated residential values in the larger cities so that homeowners do not pay a disproportionate share of taxes

and so that municipalities receive a more equitable share of provincial grants. 3. Provide a phase-in adjustment program for homeowners, with graded exemptions and other special circumstances, to prevent sudden and excessive tax increases as a result of the implementation of assessment reform. 4. Provide a mandatory pass-through to tenants of any property tax reductions on apartments. 5. Assess farmland at agricultural value, except where it is held by speculators or developers. Further, the program must provide that the following measures form part of, and be implemented with, the reassessment program: (a) Legislate the revenue-sharing program between the Province and local governments. (b) Apply the Property Tax Credit directly to the payment of property tax bills, at the time of payment. (c) Undertake a program to reduce the educational portion of the property tax. *To be debated November 2nd, 1978.*

**PRIVATE MEMBER'S MOTION TABLED ON
OCTOBER 30th, 1978**

(Private Members' Motions, other than those directly related to Government Orders, will be published on the Notice Paper each Thursday.)

26. *Mr. Cassidy*—Reasoned Amendment—That the motion for Second Reading of Bill 136 intituled “An Act to Stabilize the Employment of Tradesmen in the Construction Industry” be amended by deleting all the words after “That” and substituting therefor the words:— “This Bill be not now read a second time, in order that it may be withdrawn for redrafting in order that: 1. the code or codes of employment practices mentioned in the said Act be restricted to the sole principle of giving preference in employment to construction tradesmen permanently resident in Ontario and that no other interference in employment practices respecting employment in the construction industry be undertaken by the authority of this legislation and that, 2. the sweeping and arbitrary powers given to the Minister as presently contained in Section 2 (1) and Section 6 of the Act be deleted because the provisions of these Sections could be used to take away protections of the employees affected not only as those protections are outlined in the constitutions, bylaws, and collective agreements of the unions involved but could also be used to take away protections embodied in legislation affecting workers such as the Workmen's Compensation Act, the Labour Relations Act, the Employment Standards Act, the Construction Safety Act and the Employee's Health and Safety Act, and because none of these powers are necessary for the purposes of the present Act and that, 3. the Government adopt legislation more in keeping with the principles outlined in Bill 98, a Bill intituled “An Act to Provide for Residence Requirements for Construction Workers in Ontario” as presented in the Legislature by the Honourable Member for Cornwall (Mr. Samis) and that, 4. the Government include a sunset provision in the legislation so that it expires 18 months from the time it receives Royal Assent”.

Ballot Item No. 33

Mr. Deans—Resolution—That in the opinion of this House, the Government should proceed with assessment reform to achieve property tax equity through the following modifications of the Reassessment Program: 1. Assure that there is no general increase in taxes to the residential sector or to the small business sector. 2. Adjust the excessively inflated residential values in the larger cities so that homeowners do not pay a disproportionate share of taxes

and so that municipalities receive a more equitable share of provincial grants. 3. Provide a phase-in adjustment program for homeowners, with graded exemptions and other special circumstances, to prevent sudden and excessive tax increases as a result of the implementation of assessment reform. 4. Provide a mandatory pass-through to tenants of any property tax reductions on apartments. 5. Assess farmland at agricultural value, except where it is held by speculators or developers. Further, the program must provide that the following measures form part of, and be implemented with, the reassessment program: (a) Legislate the revenue-sharing program between the Province and local governments. (b) Apply the Property Tax Credit directly to the payment of property tax bills, at the time of payment. (c) Undertake a program to reduce the educational portion of the property tax. *To be debated November 2nd, 1978.*

Ballot Item No. 33

Mr. Deans—Resolution—That in the opinion of this House, the Government should proceed with assessment reform to achieve property tax equity through the following modifications of the Reassessment Program: 1. Assure that there is no general increase in taxes to the residential sector or to the small business sector. 2. Adjust the excessively inflated residential values in the larger cities so that homeowners do not pay a disproportionate share of taxes and so that municipalities receive a more equitable share of provincial grants. 3. Provide a phase-in adjustment program for homeowners, with graded exemptions and other special circumstances, to prevent sudden and excessive tax increases as a result of the implementation of assessment reform. 4. Provide a mandatory pass-through to tenants of any property tax reductions on apartments. 5. Assess farmland at agricultural value, except where it is held by speculators or developers. Further, the program must provide that the following measures form part of, and be implemented with, the reassessment program: (a) Legislate the revenue-sharing program between the Province and local governments. (b) Apply the Property Tax Credit directly to the payment of property tax bills, at the time of payment. (c) Undertake a program to reduce the educational portion of the property tax. *To be debated November 2nd, 1978.*

Ballot Item No. 34

Mr. Turner—Resolution—That, in the opinion of this House, the Government should consider adopting policies to encourage every municipality to share with the provincial Government the task of planning for job creation and industrial expansion for the future, and in particular, the Government should, (i) encourage every municipality to develop job creation and industrial expansion goals as part of the planning process directed toward establishing or amending an official plan for the municipality, and (ii) encourage every municipality to include job creation or industrial expansion goals in the appendix of the official plan for the municipality. *To be debated November 2nd, 1978.*

158. *Mr. Sweeney*—Enquiry of the Ministry—Considering that the Ontario E.C. Authority is an independent agency in which “the government would not assume an active role or participate in its programming” and considering the fact that O.E.C.A. ignored the Hon. R. Baetz’s recommendations that the Religious Advisory Committee of the O.E.C.A. be consulted before the showing of the film—The Jesus Trial, can the Minister of Culture and Recreation tell us: 1. 159. *Mr. McClellan*—Enquiry of the Ministry—(a) How many Provincially approved Day Nurseries are operating on a provisional approval under section 2 of the Day Nurseries Act; Will the Ministry identify each Day Nursery operating on provisional approval, if any, and give the reasons for withholding full approval; (b) Since January 1975, have any provincially approved Day Nurseries had their approval suspended—either permanently or provisionally; if so, which Day Nurseries and for what reasons. *Tabled November 27th, 1978.*

NOTICES

QUESTIONS TABLED ON NOVEMBER 28th, 1978

161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. Specifically, will the Ministry introduce legislation to enable municipalities such as Peel to enforce price agreements to control housing price increases in government assisted housing developments. *Tabled November 28th, 1978.*

162. *Mr. Duksza*—Enquiry of the Ministry—Does the Ministry accept the findings of the Regional Municipality of Peel Housing Task Force, represented in Figure 3.14 of the Appendix of the Final Report, wherein it is reported that \$22,936 or 29.5% of the total selling price of \$77,927 for a typical new house in Peel was simply mark-up in value. Does the Ministry find these typical levels of profit acceptable and, if not, what action is being taken to control profits in land and housing developments. *Tabled November 28th, 1978.*

163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

Specifically, will the Ministry introduce legislation to enable municipalities such as Peel to enforce price agreements to control housing price increases in government assisted housing developments. *Tabled November 28th, 1978.*
162. *Mr. Duksza*—Enquiry of the Ministry—Does the Ministry accept the findings of the Regional Municipality of Peel Housing Task Force, represented in Figure 3.14 of the Appendix of the Final Report, wherein it is reported that \$22,936 or 29.5% of the total selling price of \$77,927 for a typical new house in Peel was simply mark-up in value. Does the Ministry find these typical levels of profit acceptable and, if not, what action is being taken to control profits in land and housing developments. *Tabled November 28th, 1978.*
163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. Specifically, will the Ministry introduce legislation to enable municipalities such as Peel to enforce price agreements to control housing price increases in government assisted housing developments. *Tabled November 28th, 1978.*
162. *Mr. Duksza*—Enquiry of the Ministry—Does the Ministry accept the findings of the Regional Municipality of Peel Housing Task Force, represented in Figure 3.14 of the Appendix of the Final Report, wherein it is reported that \$22,936 or 29.5% of the total selling price of \$77,927 for a typical new house in Peel was simply mark-up in value. Does the Ministry find these typical levels of profit acceptable and, if not, what action is being taken to control profits in land and housing developments. *Tabled November 28th, 1978.*
163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed

to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

164. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table its calculations of the effect of oil and natural gas price increases on the overall inflation rate in the Ontario economy in 1977 or the latest year available. What effect did the oil and natural gas price increases have on the cost of production for Ontario industries. What effect did it have on transportation costs. *Tabled December 1st, 1978.*
165. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table all studies and future projections of auto industry employment for Ontario as a whole and/or its regions. *Tabled December 1st, 1978.*
166. *Ms. Gigantes*—Enquiry of the Ministry—1. How does the Minister of Education propose that the projected need for circa 2000 new elementary teachers in 1978-79 will be met in the light of the closing of the Hamilton and Toronto OTECs. 2. Does the Minister expect that existing secondary-oriented staff at the university faculties of education will simply be transferred to elementary-level training posts, and if so, does she expect that this move will really fulfill the special needs for elementary-level teacher training. 3. How much money does the Minister expect to save *in net terms*, with the closing of the OTECs. 4. How does the Minister justify her reluctance to interfere with enrolment of secondary-oriented teacher-trainees at the university faculties of education when the projection for new secondary teachers in 1978 is circa 500 and trainee enrolments are projected at circa 2000 for the same year. *Tabled December 1st, 1978.*
167. *Ms. Gigantes*—Enquiry of the Ministry—1. Will the Minister of Education provide a reconciliation between the figures on the number of children enrolled in programs for learning disabilities which were presented: (a) by the former Minister of Education in the 1978 Education Estimates (3,862 for 20 boards of education in May, 1978); (b) by the Association for Children with Learning Disabilities (5,314 for *the same* 20 boards of education in May, 1977); (c) has the number of learning disabled children for which these 20 boards had responsibility dropped by 27% in one year; or have these boards cut their programs for the learning disabled by 27% in one year; or are the Ministry figures wrong; or are the ACLD figures wrong. 2. Does the Minister accept the ACLD "extremely conservative" estimate of learning disabled children as a group of circa 5.84% of the total. 3. In view of the ACLD findings in 1977 that outside Metropolitan Toronto only 1.86% of learning disabled children were receiving special education, will the Minister's long-promised announcements mean a significant rise in the number of learning disabled children to be served by special education outside Metropolitan Toronto. *Tabled December 1st, 1978.*

161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim

Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. Specifically, will the Ministry introduce legislation to enable municipalities such as Peel to enforce price agreements to control housing price increases in government assisted housing developments. *Tabled November 28th, 1978.*

162. *Mr. Duksza*—Enquiry of the Ministry—Does the Ministry accept the findings of the Regional Municipality of Peel Housing Task Force, represented in Figure 3.14 of the Appendix of the Final Report, wherein it is reported that \$22,936 or 29.5% of the total selling price of \$77,927 for a typical new house in Peel was simply mark-up in value. Does the Ministry find these typical levels of profit acceptable and, if not, what action is being taken to control profits in land and housing developments. *Tabled November 28th, 1978.*
163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*
164. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table its calculations of the effect of oil and natural gas price increases on the overall inflation rate in the Ontario economy in 1977 or the latest year available. What effect did the oil and natural gas price increases have on the cost of production for Ontario industries. What effect did it have on transportation costs. *Tabled December 1st, 1978.*
165. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table all studies and future projections of auto industry employment for Ontario as a whole and/or its regions. *Tabled December 1st, 1978.*
166. *Ms. Gigantes*—Enquiry of the Ministry—1. How does the Minister of Education propose that the projected need for circa 2000 new elementary teachers in 1978-79 will be met in the light of the closing of the Hamilton and Toronto OTECs. 2. Does the Minister expect that existing secondary-oriented staff at the university faculties of education will simply be transferred to elementary-level training posts, and if so,

does she expect that this move will really fulfill the special needs for elementary-level teacher training. 3. How much money does the Minister expect to save *in net terms*, with the closing of the OTECs. 4. How does the Minister justify her reluctance to interfere with enrolment of secondary-oriented teacher-trainees at the university faculties of education when the projection for new secondary teachers in 1978 is circa 500 and trainee enrolments are projected at circa 2000 for the same year. *Tabled December 1st, 1978.*

167. *Ms. Gigantes*—Enquiry of the Ministry—1. Will the Minister of Education provide a reconciliation between the figures on the number of children enrolled in programs for learning disabilities which were presented: (a) by the former Minister of Education in the 1978 Education Estimates (3,862 for 20 boards of education in May, 1978); (b) by the Association for Children with Learning Disabilities (5,314 for the same 20 boards of education in May, 1977); (c) has the number of learning disabled children for which these 20 boards had responsibility dropped by 27% in one year; or have these boards cut their programs for the learning disabled by 27% in one year; or are the Ministry figures wrong; or are the ACLD figures wrong. 2. Does the Minister accept the ACLD "extremely conservative" estimate of learning disabled children as a group of circa 5.84% of the total. 3. In view of the ACLD findings in 1977 that outside Metropolitan Toronto only 1.86% of learning disabled children were receiving special education, will the Minister's long-promised announcements mean a significant rise in the number of learning disabled children to be served by special education outside Metropolitan Toronto. *Tabled December 1st, 1978.*
168. *Mr. Breagh*—Enquiry of the Ministry—What are the results of the random samples of opinion now gathered by OHIP from its subscribers. Will the Minister provide copies of these results or summaries of their findings. *Tabled December 4th, 1978.*

170. *Mr. Breagh*—Enquiry of the Ministry—What is the policy of the Ministry of Health on the distribution of Temporary Assistance forms for OHIP. Could the Minister list the locations where these forms are now available. Why are these forms not made readily available to Health Service Organizations. *Tabled December 4th, 1978.*
171. *Mr. Reid (Rainy River)*—Enquiry of the Ministry—1. Could the Ministry of Labour inform the House when the Kelly Commission on Arbitration was set up and when the Report was tabled with the Government. 2. Would the Ministry provide information as to the number of people employed by the Commission and what the final expenditure of the Commission was. *Tabled December 4th, 1978.*

172. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—Would the Minister of Natural Resources inform the House how many meetings have been held by the Cabinet Committee on the Economic Future of Mining Communities. What recommendations have been made to Cabinet in regard to Cabinet Committee on the Economic Future of Mining Communities. *Tabled December 4th, 1978.*
173. *Mr. Grande*—Enquiry of the Ministry—Will the Minister of Culture and Recreation table a report on the 23 Golf and Country Club applications for Wintario capital grants including the following information and documentation: (a) the amount of the grant given; (b) any or all documentation between the Ministry and the principal agents of the Golf Club from the receipt of the application up to and including the letter of final approval. (c) any or all post-audits that have been done by the Ministry in order to satisfy itself that the golf clubs in question have applied the monies granted for the purpose for which the grant was given. (d) any information, documentation or both which indicate what steps the Ministry has taken if the post-audit was not satisfactory. *Tabled December 4th, 1978.*
174. *Mr. Grande*—Enquiry of the Ministry—Now that the Heritage Language Program has been in operation for a full year and the former Minister of Education stated that a full review of the program would be done in order to ascertain whether a change in the funding formula is indicated, would the Minister of Education table the review and also table any communications the Ministry has had with Boards of Education across the province and responses to that communication. *Tabled December 4th, 1978.*

161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. Specifically, will the Ministry introduce legislation to enable municipalities such as Peel to enforce price agreements to control housing price increases in government assisted housing developments. *Tabled November 28th, 1978.*
162. *Mr. Duksza*—Enquiry of the Ministry—Does the Ministry accept the findings of the Regional Municipality of Peel Housing Task Force, represented in Figure 3.14 of the Appendix of the Final Report, wherein it is reported that \$22,936 or 29.5% of the total selling price of \$77,927 for a typical new house in Peel was simply mark-up in value. Does the Ministry find these typical levels of profit acceptable and, if not, what action is being taken to control profits in land and housing developments. *Tabled November 28th, 1978.*
163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the

Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

164. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table its calculations of the effect of oil and natural gas price increases on the overall inflation rate in the Ontario economy in 1977 or the latest year available. 165. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table all studies and future projections of auto industry employment for Ontario as a whole and/or its regions. *Tabled December 1st, 1978.*
166. *Ms. Gigantes*—Enquiry of the Ministry—1. How does the Minister of Education propose that the projected need for circa 2000 new elementary teachers in 1978-79 will be met in the light of the closing of the Hamilton and Toronto OTECs. 2. Does the Minister expect that existing secondary-oriented staff at the university faculties of education will simply be transferred to elementary-level training posts, and if so, does she expect that this move will really fulfill the special needs for elementary-level teacher training. 3. How much money does the Minister expect to save *in net terms*, with the closing of the OTECs. 4. How does the Minister justify her reluctance to interfere with enrolment of secondary-oriented teacher-trainees at the university faculties of education when the projection for new secondary teachers in 1978 is circa 500 and trainee enrolments are projected at circa 2000 for the same year. *Tabled December 1st, 1978.*
167. *Ms. Gigantes*—Enquiry of the Ministry—1. Will the Minister of Education provide a reconciliation between the figures on the number of children enrolled in programs for learning disabilities which were presented: (a) by the former Minister of Education in the 1978 Education Estimates (3,862 for 20 boards of education in May, 1978); (b) by the Association for Children with Learning Disabilities (5,314 for the same 20 boards of education in May, 1977); (c) has the number of learning disabled children for which these 20 boards had responsibility dropped by 27% in one year; or have these boards cut their programs for the learning disabled by 27% in one year; or are the Ministry figures wrong; or are the ACLD figures wrong. 2. Does the Minister accept the ACLD "extremely conservative" estimate of

learning disabled children as a group of circa 5.84% of the total. 3. In view of the ACLD findings in 1977 that outside Metropolitan Toronto only 1.86% of learning disabled children were receiving special education, will the Minister's long-promised announcements mean a significant rise in the number of learning disabled children to be served by special education outside Metropolitan Toronto. *Tabled December 1st, 1978.*

168. *Mr. Breagh*—Enquiry of the Ministry—What are the results of the random samples of opinion now gathered by OHIP from its subscribers. Will the Minister provide copies of these results or summaries of their findings. *Tabled December 4th, 1978.*
169. *Mr. Breagh*—Enquiry of the Ministry—How many hospitals in Ontario require the use of a Social Insurance Number for patient identification. What is the Ministry of Health's official policy for this practice. *Tabled December 4th, 1978.*
170. *Mr. Breagh*—Enquiry of the Ministry—What is the policy of the Ministry of Health on the distribution of Temporary Assistance forms for OHIP. 172. *Mr. Reid (Rainy River)*—Enquiry of the Ministry—Would the Minister of Natural Resources inform the House how many meetings have been held by the Cabinet Committee on the Economic Future of Mining Communities. What recommendations have been made to Cabinet in regard to Cabinet Committee on the Economic Future of Mining Communities. *Tabled December 4th, 1978.*
173. *Mr. Grande*—Enquiry of the Ministry—Will the Minister of Culture and Recreation table a report on the 23 Golf and Country Club applications for Wintario capital grants including the following information and documentation: (a) the amount of the grant given; (b) any or all documentation between the Ministry and the principal agents of the Golf Club from the receipt of the application up to and including the letter of final approval. (c) any or all post-audits that have been done by the Ministry in order to satisfy itself that the golf clubs in question have applied the monies granted for the purpose for which the grant was given. (d) any information, documentation or both which indicate what steps the Ministry has taken if the post-audit was not satisfactory. *Tabled December 4th, 1978.*

174. *Mr. Grande*—Enquiry of the Ministry—Now that the Heritage Language Program has been in operation for a full year and the former Minister of Education stated that a full review of the program would be done in order to ascertain whether a change in the funding formula is indicated, would the Minister of Education table the review and also table any communications the Ministry has had with Boards of Education across the province and responses to that communication.
Tabled December 4th, 1978.
175. *Mr. Epp*—Enquiry of the Ministry—Will the Ministry of Housing table the following information on the Management Systems Branch:—

What are his/her functions. How much travelling does this person do and how are their activities monitored. 4. Does the Ministry employ the services of "Info Data Systems". Will the Minister table the contract(s) with this firm. Will the Minister show how much has been paid to it in the last three years, and explain the functions performed for the Ministry by this Company. 5. 161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. Specifically, will the Ministry introduce legislation to enable municipalities such as Peel to enforce price agreements to control housing price increases in government assisted housing developments. *Tabled November 28th, 1978.*
162. *Mr. Duksza*—Enquiry of the Ministry—Does the Ministry accept the findings of the Regional Municipality of Peel Housing Task Force, represented in Figure 3.14 of the Appendix of the Final Report, wherein it is reported that \$22,936 or 29.5% of the total selling price of \$77,927 for a typical new house in Peel was simply mark-up in value. Does the Ministry find these typical levels of profit acceptable and, if not, what action is being taken to control profits in land and housing developments. *Tabled November 28th, 1978.*
163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the

Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

164. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table its calculations of the effect of oil and natural gas price increases on the overall inflation rate in the Ontario economy in 1977 or the latest year available. 165. *Mr. Laughren*—Enquiry of the Ministry—Would the Ministry table all studies and future projections of auto industry employment for Ontario as a whole and/or its regions. *Tabled December 1st, 1978.*
166. *Ms. Gigantes*—Enquiry of the Ministry—1. How does the Minister of Education propose that the projected need for circa 2000 new elementary teachers in 1978-79 will be met in the light of the closing of the Hamilton and Toronto OTECs. 2. Does the Minister expect that existing secondary-oriented staff at the university faculties of education will simply be transferred to elementary-level training posts, and if so, does she expect that this move will really fulfill the special needs for elementary-level teacher training. 3. How much money does the Minister expect to save *in net terms*, with the closing of the OTECs. 4. How does the Minister justify her reluctance to interfere with enrolment of secondary-oriented teacher-trainees at the university faculties of education when the projection for new secondary teachers in 1978 is circa 500 and trainee enrolments are projected at circa 2000 for the same year. *Tabled December 1st, 1978.*
167. *Ms. Gigantes*—Enquiry of the Ministry—1. Will the Minister of Education provide a reconciliation between the figures on the number of children enrolled in programs for learning disabilities which were presented: (a) by the former Minister of Education in the 1978 Education Estimates (3,862 for 20 boards of education in May, 1978); (b) by the Association for Children with Learning Disabilities (5,314 for the same 20 boards of education in May, 1977); (c) has the number of learning disabled children for which these 20 boards had responsibility dropped by 27% in one year; or have these boards cut their programs for the learning disabled by 27% in one year; or are the Ministry figures wrong; or are the ACLD figures wrong. 2. Does the Minister accept the ACLD "extremely conservative" estimate of

learning disabled children as a group of circa 5.84% of the total. 3. 161. *Mr. Duksza*—Enquiry of the Ministry—Would the Minister table his Ministry's response to the Regional Municipality of Peel's 1977 Interim Housing Policy Statement and Final Report of the Housing Task Force and would the Minister indicate what action has been taken or is planned by the Ministry of Housing as recommended by the Peel Regional Municipality. 163. *Mr. Duksza*—Enquiry of the Ministry—Will the Ministry now table the response it made to the October 3 letter written by the Chairman of the Niagara Escarpment Commission on behalf of the Commission to the Premier expressing their concern about the approval of the

Cantrakon project by the Minister of Housing. If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

If the letter remains unanswered or if the Ministry is unwilling to share the reply with the Legislature, will the Ministry then respond to the Commission's concern expressed by the last paragraph of that letter, namely: "The Commission's concern about establishing precedents of this nature are based on the belief that there exists in the vicinity of the escarpment substantial land holdings that were acquired with a view to future intensive development—principally housing, subdivisions, or quarrying. Contacts with a number of landowners to date have provided substantiation for this belief. It would not be difficult to establish economic benefits that would result if these developments were allowed to proceed. However, in many cases there are likely to be alternatives that would provide comparable economic benefits but which are not in the immediate area of the escarpment". *Tabled November 28th, 1978.*

How much money does the Minister expect to save *in net terms*, with the closing of the OTECs. 4. How does the Minister justify her reluctance to interfere with enrolment of secondary-oriented teacher-trainees at the university faculties of education when the projection for new secondary teachers in 1978 is circa 500 and trainee enrolments are projected at circa 2000 for the same year. *Tabled December 1st, 1978.*

Does the Minister accept the ACLD “extremely conservative” estimate of learning disabled children as a group of circa 5.84% of the total. 3. In view of the ACLD findings in 1977 that outside Metropolitan Toronto only 1.86% of learning disabled children were receiving special education, will the Minister’s long-promised announcements mean a significant rise in the number of learning disabled children to be served by special education outside Metropolitan Toronto. *Tabled December 1st, 1978.*
